

Security Scan Report

Target: <https://s4ds.kjsieit.in/>

Scan Date: August 26, 2026 at 17:33 UTC

Scan ID: 5f430e69-e127-4ec2-bd3c-5aac18079993

0 CRITICAL

0 HIGH

0 MEDIUM

0 LOW

Executive Summary

Based on the scan results, the overall security posture of the target system is considered "SECURE — minimal risks identified". The scan did not detect any critical or high-risk vulnerabilities, which is a positive indication of the system's security. However, it is essential to note that the scan only targeted a specific URL and may not have uncovered all potential vulnerabilities. To maintain the system's security, we recommend prioritizing the following action items: 1. Review and update the system's configuration to ensure it is up-to-date and secure. 2. Implement a web application firewall (WAF) to protect against common web attacks. 3. Conduct regular security scans and penetration testing to identify and address potential vulnerabilities. These action items should be addressed immediately to ensure the system's continued security.

Scan Statistics

Metric	Value
Total Raw Findings	0
After Deduplication	0
Critical Findings	0
High Findings	0
Medium Findings	0
Low Findings	0
Scan Duration	79.8s
